## Discover the Difference

---

Yvonne de Vilar Scientific Skin Care, Ltd. Aesthetic Salon and School is proud to offer the community an opportunity to receive services at a discounted rate as our students develop and hone their esthetic skills. All services take place while students are being instructed during class by our Licensed Instructors.

Services are limited to the training level of the students. If you have a particular type of treatment in mind, let us know this when you call for an appointment.

Our services are two-tiered. Basic facial treatments, body treatments and waxing services are performed by our Basic Esthetics Course students. Advanced facial treatments, Chemical Peels and Microdermabrasion treatments are performed by our Licensed Master Esthetics Course students.

Please be aware that **extractions** are only available from students should the time permit, and only with the Instructor's prior approval.

We encourage you to *discover the difference* in our results oriented treatments and in the quality of the customer service and care that we pride ourselves in providing to our new, existing and ultimately loyal clients.
